BEST PRACTICE - II

1. Title : Upon Avon Circle

2. Goal:

- In the times of globalisation, privatisation and liberalisation and decreasing distance between human beings from different corners of the world, an Indian cannot lag behind in connecting himself with the world. The most important power that can establish connection between the Indians and the people of other nationality is nothing but the knowledge and usage of English as a medium of expression. Our students are far behind compared to the other states of the country, as far as the knowledge of English is concerned. The rate of higher education among the students of this area of the state is also very low. Therefore it is necessity to take initiatives to inculcate positive attitude towards English and its literature among the students first of all and thereby bring such students near main stream users of English. The aims of several initiatives undertaken by the College are:
- To create awareness among the students about the need of English in present scenario and make them familiar with the best of English literature and English movies in order to awake them as a modern student.
- To provide an opportunity to students to use English actively.
- To encourage the students towards proficiency of English.

3. Challenges:

- Poor and remote background of the students
- Lack of quality teaching at primary and secondary level of schools.
- To make the students understand and correctly use English.

4. The Practice:

Several initiatives are undertaken to meet the above mentioned goals:

- Observing the interest level of students towards English at the initial stage
- Convincing the students towards the learning of something other than routine syllabus
- Gradually introducing simple to tougher usage of English through listening, reading writing and speaking through songs and movies.
- Introducing tougher usage of English through the activities like Elocution Competition, Essay competition, Poetry recitation, Literature Quiz etc..
- Encouraging them to write and express themselves in poems, letters and small stories.
- Positively pressurising the students to increase their usage of English among friends as well as with the teachers.
- Provide them the exposure to modern English through international sports, films, drama, etc.

5. Evidence of Success:

- Some raw students at initial level showed reasonable proficiency in English.
- Students are benefitted in their efforts of cracking competitive exams of all kinds.
- Some showed interest in creative writing specially in poetry.

6. Problems Encountered and Resources Required:

- No financial problems were encountered in undertaking measures to establish this new way of learning English.
