Introduction-Vision and objective

Forward

G D Modi College of Arts feels this concern and decided to form Humanist Youth Forum (a Study Circle) in college. H Y F will provide platform to the students so that they may feel free to share their views and think scientifically and rationally. They can come together and offer their vision, energy, dream mission and different point of views about various **topics of the syllabus and off the syllabus**.

H Y F desires to promote the culture of clear headedness, humanism, scientific temper and rational behavior. **It will help students conduct different programs so that they may have conversations, debate, and dialogue on the issues which are directly or indirectly affecting them. This will develop in them leadership quality and critical thinking skill. This is the process which will make them not only able to listen and speak up freely but also courage and respect to accept contrary point of views.** Consequently, the students will be able to create common understanding and respecting the otherness of others. Thus, H Y F will help students develop their critical thinking so that they may be able to tackle burning issues of our society

The Humanist Youth Forum is an initiative to inculcate a scientific approach in college students and teach them to look critically at various issues, **which is also entirely student-run**. The form organizes various programs on various subjects through which students are given opportunities to build leadership and strengthen their self-expression. Students themselves choose topics of their interest and discuss them in group discussions or by a speaker. Mainly students get conceptual strength, understand various aspects of life, and discuss them and finally..... Understand everything from a humanistic approach.

Objective of Humanist Youth Forum:

- ✓ To develop different way of talking, listening and reflecting on what they hear and speak.
- ✓ To enable them to understand various democratic practices.
- ✓ To understand and respect the contrary point of view and search for common understanding.
- ✓ To promote rationale and critical thinking.
- ✓ To increase book reading interest and to prepare them for the dialogue and debate.
- ✓ To understand different ideologies, –isms, social and political leaders.
- ✓ To build relationships and bonding among the diverse youth.
- ✓ To promote spirit of inquiry and joy of discovery.

Our mission

To facilitate **Students** to develop humanistic values, development of human potential, and acknowledgment of human dignity.

Our Vision

To develop the Humanistic approach, scientific temperament and rational behavior among the students.

- Who can learn from self and be guided internally by own.
- Who can make his/her decisions
- Who can observe and evaluate.

The program was divided into four phases. 5 students participated in each panel and questions were asked by Sachin Chaudhary, Mir Muskan, Jyoti Rawal and Karan Bhatti. Dr. Sohan Dave Ane Dr. Mihir M Dave, mentor of the forum, gave special thanks to the members and appreciated the initiative. Report on Telegram Channel - "Just Graduating"

Introduction

The "Just Graduating" Telegram channel was inspired by the Humanist Youth Forum's initiative "For Students, By Students." This platform was founded by Karan Bhati along with five other students, aiming to provide educational content in an accessible and student-friendly manner. The channel reflects a unique educational model where students take an active role in both teaching and learning.

Inception and Development

The idea originated from Karan Bhati and his friends' experiences with the high costs of guidebooks. They initially shared one book among friends by photographing pages. However, recognizing the limitations of this method, they transitioned to creating PDFs. This method too had its drawbacks, particularly with the loss of data due to technical issues. To overcome these challenges, the students created a Telegram group to store and share their PDFs, taking advantage of Telegram's long-term storage capabilities. This group, initially intended for personal use, was eventually opened to a broader audience, expanding its reach to students from various colleges and universities.

Content and Delivery

The "Just Graduating" channel provides a wide range of educational materials, focusing primarily on the Bachelor of Arts (BA) syllabus. The students collect, curate, and organize syllabus-related content from online sources, ensuring its accuracy and relevance. Teachers act as facilitators, guiding the students in this process. In addition to the Telegram channel, the students launched a YouTube channel under the same name. This channel features video lectures delivered in an easy-to-understand language, tailored to their peers' needs. The video lectures cover BA semesters 2, 4, and 5, with plans to expand to other semesters.

Unique Teaching Model

Reflecting their college's tradition of celebrating Teachers' Day uniquely, where students play the role of teachers, the "Just Graduating" channel applies a similar model. Students independently gather syllabus materials, search for proper content online, and deliver it in a comprehensible format. This peer-to-peer teaching approach fosters a collaborative learning environment and empowers students to take charge of their education.

Impact and Reach

The channel has garnered a substantial following, with over 300 subscribers on YouTube and a growing network on Telegram. Students from various institutions connect through this platform, benefiting from the shared resources and peer support.

Personal Experience

Karan Bhati shares his experience as follows:

1. High Cost of Guidebooks: Initially, the group faced the high cost of guidebooks, leading them to buy one book and share photographs among friends.
2. Transition to PDFs: To mitigate the limitations of sharing photographs, they started creating PDFs, though this method also had its challenges.
3. Creation of Telegram Group: They then created a Telegram group to store PDFs securely, eventually opening it to a wider audience.
4. Wide Availability of Resources: With the vast online resources, they could access virtually any required material, making expensive books unnecessary.
5. Expansion and Networking: The channel connected students from various colleges and universities, creating a large and supportive network.
6. YouTube Channel: The YouTube channel complements the Telegram group by providing video lectures, further enhancing their educational resources.

Conclusion

The "Just Graduating" Telegram channel is a testament to the power of student-led initiatives in education. By leveraging technology and peer collaboration, Karan Bhati and his team have created a valuable resource for students, making education more accessible and engaging. The channel continues to grow, with a positive impact on its community.

પૂર્વભૂમિકા:

'હું છું ગુજરાતી...!'

રતન જેવી આપણી ગુજરાતી ભાષાનું આપણે
જતન કરી તેને

પતનમાંથી ઉગારવી એ જ હજો
આપણો મુદ્રાલેખ અને આપણો યજ્ઞ.

એ માટે-

આપણો પ્રત્યેક શ્વાસ એક આહુતિ...

આપણો પ્રત્યેક વિચાર એક મંત્ર...

પ્રત્યેક શબ્દ એક તુલસીદલ...

પ્રત્યેક પગલું કાળના કિનખાબ પર

એક મુદ્રા...

આ મુદ્રા લેખ એજ પુસ્તક પરબની સાર્થકતા.

આજે જ્યારે ગુજરાતી ભાષાનો નાભિશ્વાસ ચાલે છે ત્યારે તેનું સંવર્ધન એજ આપણો સ્વધર્મ અને યુગધર્મ. આવા શુભાશયથી પુસ્તક પરબનો આરંભ કરવામાં આવેલ.
